

I am writing in regard to the proposal concerning Low Power FM (LPFM). The proposal to expand this service would apparently interfere with my reception of my FM station, K-LOVE. K-LOVE provides our community with commercial-free, family-friendly radio. It is a great relief as a parent to have this radio station, which I know my children can enjoy without fear of inappropriate material. The loss of this station would be a significant loss to our community. I know of many other families who listen to K-LOVE regularly. Please do not instigate any changes that would threaten our ability to receive the uplifting programming from K-LOVE. Thank you.
